Curtin Head of School

Commendation - Sem 1, 2025

Curtin Head of School

Commendation - Sem 2, 2024

Curtin Head of School

Commendation - Sem 1, 2023

Hi! Hi! Hi!

Product/UX Designer with a Bachelor of Design (Digital Experience and Interaction Design, Curtin University) and hands-on experience designing end-to-end digital products, from user flows and wireframes through to build-ready, high-fidelity UI. Comfortable translating business requirements and stakeholder input into intuitive, accessible design solutions, and iterating designs through ongoing collaboration and feedback. Skilled in Figma, design systems and front-end fundamentals (HTML/CSS/JavaScript), backed by seven years' prior experience in marketing production that brought strong execution discipline and stakeholder communication skills.

EXPERIENCE

Freelance UI/UX Designer(Project-Based) - AUS

Cendro Labs Pty Ltd — 2025 – Present

- Designed UI/UX and brand visual identity for Pixfy (pixfy.io), an AI image-editing web product, translating product requirements into build-ready interface designs.
- Designed UI/UX and brand visual identity for FablePilot (fablepilot.com), an AI book-generation web product, working across the product's design and content experience.

Freelance UI/UX Designer(Project-Based) - AUS

Asmovian Pty Ltd — Aug 2025

- Built and maintain a documented Brand & UI Kit for Orva, covering a colour system, typography scale, logo/icon system and reusable components, iterated across versions and applied consistently across two distinct surfaces (patient app and clinician portal).
- Own the end-to-end design of the Orva clinician portal, translating client requirements and real clinical workflows into user flows, wireframes and build-ready, high-fidelity UI.
- Designed the full patient-facing product (chat interface, dashboard, login, settings) with accessibility and usability as first-order concerns, including simplified interactions and per-message text-to-speech controls for elderly users.
- Work closely with client stakeholders through ongoing feedback cycles to refine features and keep design decisions aligned with what actually gets built, alongside full brand identity and logo development.

Marketing Manager - China

Aoyou Network Technology Co., Ltd. (China) – Apr 2017 – Apr 2024

- Managed end-to-end production and delivery of marketing content, campaign assets and a company magazine, working cross-functionally with authors, contributors and internal stakeholders to defined deadlines.
- Planned and executed marketing campaigns, events and website/content management, building strong stakeholder communication and delivery discipline.

SKILLS

- **Design Systems & UX:** Reusable Components & Patterns, Visual Consistency, Design Tokens, Accessibility & Usability Principles, Wireframing, High-Fidelity UI, Figma
- **Front-End:** HTML, CSS, JavaScript
- **Collaboration:** Cross-Functional Collaboration (Design, Engineering, Product), Stakeholder Communication, Adobe Creative Suite, Bilingual (English/Mandarin)
