Product designer in Melbourne. I design digital products end to end, from user flows and wireframes to build-ready UI and design systems. Before design, I spent seven years in marketing, so I think about how people find, judge and choose a product.

SKILLS

Product Design

User Flows, Wireframing,
Prototyping, High-Fidelity UI,
Accessibility & Usability

Design Systems

Components & Patterns, Design
Tokens, Visual Systems,

Digital Experience & Interaction
Design

AWARDS

Curtin Head of School Commendation

Semester 1 2025
Semester 2 2024
Semester 1 2023

EXPERIENCE

2025–Present · Melbourne, Australia

Freelance Product Designer

Cendro Labs Pty Ltd · Client

2025–Present

- Led the end-to-end redesign of **Denlo**, Cendro Labs' voice-to-social iOS app, covering product UX, onboarding, pricing, visual design, motion and App Store presentation. Launched Oct 2026.
- Designed product UX, UI and visual identities for Cendro Labs' other AI products, **Scribix**, **Pixfy** and **FablePilot**, translating early product requirements into build-ready experiences.

Asmovian Pty Ltd · Client

Aug 2025–Feb 2026

- Owned the end-to-end product design of **Orva**, Asmovian's AI healthcare product, spanning a patient-facing tablet experience and clinician portal.
- Designed accessible experiences for older users, with simplified interactions and per-message text-to-speech controls.
- Built and documented Orva's design system and visual identity, including reusable components, typography, colour, iconography and brand assets.
- Worked directly with client stakeholders and developers through ongoing feedback and implementation cycles.

Apr 2017–Apr 2024 · China

Aoyou Network Technology Co., Ltd.

Marketing Manager

- Managed end-to-end production and delivery of marketing content, campaign assets and a company magazine, working with authors, contributors and internal stakeholders to deadlines.
- Planned and executed marketing campaigns, events and website/content management.
